The 12 Roles & Access Control Directory

Comprehensive specification of all 12 distinct user roles in the FORGE Loom LMS platform—detailing tenant scoping, data access boundaries, navigation routes, operational responsibilities, and seed testing accounts.

TOTAL DEFINED ROLES

12 Distinct Roles

COLLEGE-SCOPED ROLES

4 Roles (Student, Mentor, Trainer, CollegeAdmin)

SELF-REGISTERABLE ROLES

10 Roles (ForgeAdmin & CourseAdmin are Provisioned)

UNIVERSAL SEED PASSWORD

`test1234` (Applicable to All Fixtures)

Version 1.0.0 • October 2026

1 Exact Role Count & Categorization

In FORGE Loom LMS, there are exactly **12 system roles** declared in the shared TypeScript domain package (`packages/shared-types/src/role.ts`) and mirrored in the PostgreSQL Prisma schema enum (`enum Role`).

College-Scoped — 4 Roles

Data access strictly restricted to a single college tenant via `collegeId`:

- **Student:** Course learner & builder.
- **Mentor:** Advisory expert & reviewer.
- **Trainer:** Classroom lecture conductor.
- **CollegeAdmin:** Institutional manager.

Cross-Ecosystem — 6 Roles

Global participants with access across campus networks and talent pools:

- **HR:** Corporate talent recruiter.
- **Speaker:** Keynote guest speaker.
- **Sponsor:** Innovation sprint funder.
- **CommunityLeader:** Tech organizer.
- **MediaPartner:** Press representative.
- **Member:** General community user.

Platform Governance — 2 Roles

Trusted internal operators. Cannot self-register (provisioned manually):

- **ForgeAdmin:** Super administrator.
- **CourseAdmin:** Curriculum author.

Complete 12-Role Master Directory

#	Role Identifier	Display Name	Category	Landing Route	Registration Mode
1	`student`	**Student**	College Scoped	`/student`	Self-Registerable (Requires College)
2	`mentor`	**Mentor**	College Scoped	`/mentor`	Self-Registerable (Requires College)
3	`trainer`	**Trainer**	College Scoped	`/trainer`	Self-Registerable (Requires College)
4	`college_admin`	**College Admin**	College Scoped	`/college`	Self-Registerable (Auto-provisions College)
5	`hr`	**HR / Recruiter**	Cross-Ecosystem	`/hr`	Self-Registerable
6	`speaker`	**Speaker**	Cross-Ecosystem	`/speaker`	Self-Registerable
7	`sponsor`	**Sponsor**	Cross-Ecosystem	`/sponsor`	Self-Registerable
8	`community_leader`	**Community Leader**	Cross-Ecosystem	`/community`	Self-Registerable
9	`media_partner`	**Media Partner**	Cross-Ecosystem	`/media`	Self-Registerable
10	`member`	**Member**	Cross-Ecosystem	`/member`	Self-Registerable
11	`forge_admin`	**Forge Admin**	Platform Governance	`/admin`	Internal Provisioning Only
12	`course_admin`	**Course Admin**	Platform Governance	`/course-admin`	Internal Provisioning Only

2 Granular Responsibilities & Seed Test Credentials

Every role has a dedicated persona, distinct navigation hierarchy, data permissions, and a pre-configured seed test account using the universal password: `test1234`.

1. Student (`student`)

Cluster 1 & 2

Target Persona: College undergraduate builder developing technical and entrepreneurial competency.

- **Capabilities:** Enrolls in courses, watches lessons, completes assignments, submits Citadel Sprint milestones, books 1-on-1 mentor sessions, and generates PDF certificates.
- **Data Scoping:** Read-only access to enrolled courses; write access to own submissions and bookings.
- **Seed Fixtures:** `student1@forgeloom.dev` (FIT) & `student2@forgeloom.dev` (Riverside).

2. Mentor (`mentor`)

Cluster 1 & 2

Target Persona: Industry practitioner guiding students through innovation sprints.

- **Capabilities:** Inspects assigned mentees, reviews Citadel team sprint deliverables, inputs milestone evaluations, and sets 1-on-1 availability slots.
- **Data Scoping:** Scoped to assigned students and teams within their college.
- **Seed Fixtures:** `mentor1@forgeloom.dev` (FIT) & `mentor2@forgeloom.dev` (Riverside).

3. Trainer (`trainer`)

Cluster 1 & 2

Target Persona: Academic or technical educator delivering curriculum modules.

- **Capabilities:** Schedules course batch sessions, logs student attendance, designs module assignments, grades student submissions, and sets module tests.
- **Data Scoping:** Scoped to enrolled students in assigned course batches.
- **Seed Fixtures:** `trainer1@forgeloom.dev` (FIT) & `trainer2@forgeloom.dev` (Riverside).

4. College Admin (`college_admin`)

Cluster 1 & 2

Target Persona: University Dean, HOD, or Placement Director governing campus cohorts.

- **Capabilities:** Views institution student roster, monitors faculty/trainer performance, oversees department completion rates, and tracks hiring analytics.
- **Data Scoping:** Full institutional visibility across all users sharing their `collegeId`.
- **Seed Fixtures:** `college1@forgeloom.dev` (FIT) & `college2@forgeloom.dev` (Riverside).

5. HR / Recruiter (`hr`)

Cross-Ecosystem

Target Persona: Corporate hiring manager seeking pre-screened technical talent.

- **Capabilities:** Maintains corporate profile, filters students in the Talent Pool by Builder Score (XP) and skill tags, inspects verified project portfolios, and shortlists candidates.
- **Data Scoping:** Global read access to opted-in student builder profiles across all colleges.
- **Seed Fixture:** `hr1@forgeloom.dev`.

6. Speaker (`speaker`)

Cross-Ecosystem

Target Persona: Keynote industry speaker delivering masterclasses and guest tech talks.

- **Capabilities:** Manages scheduled sessions, uploads presentation slides to S3, reviews audience feedback, proposes keynote topics, and connects with HR.
- **Data Scoping:** Scoped to assigned speaking engagements and presentation assets.
- **Seed Fixture:** `speaker1@forgeloom.dev`.

3 Roles 7 through 12 Breakdown

7. Sponsor (`sponsor`)

Cross-Ecosystem

Target Persona: Corporate or venture partner sponsoring student innovation tracks.

- **Capabilities:** Funds Citadel sprints, tracks funded project milestone submissions, reviews student demo day pitches, and gains branding across campus events.
- **Data Scoping:** Scoped to sponsored events and sponsored challenge teams.
- **Seed Fixture:** `sponsor1@forgeloom.dev` .

8. Community Leader (`community_leader`)

Cross-Ecosystem

Target Persona: Campus lead or local tech community chapter organizer.

- **Capabilities:** Organizes local tech meetups, coordinates student volunteers, facilitates peer discussions, and manages chapter outreach.
- **Data Scoping:** Access to community chapter members and public discussion feeds.
- **Seed Fixture:** `community1@forgeloom.dev` .

9. Media Partner (`media_partner`)

Cross-Ecosystem

Target Persona: Journalist or media organization covering student innovation showcases.

- **Capabilities:** Accesses official press releases, downloads brand media kits, and submits interview requests for top student innovators.
- **Data Scoping:** Access to public media assets and approved student press kits.
- **Seed Fixture:** `media1@forgeloom.dev` .

10. Member (`member`)

Cross-Ecosystem

Target Persona: Tech enthusiast, self-paced learner, or alumnus.

- **Capabilities:** Browses public course catalog, registers for open webinars, and participates in ecosystem community forums.
- **Data Scoping:** Read access to public events and community discussions.
- **Seed Fixture:** `member1@forgeloom.dev` .

11. Forge Admin (`forge_admin`)

Super Admin

Target Persona: Executive platform director overseeing all colleges and global infrastructure.

- **Capabilities:** Cross-institutional analytics, onboards new college tenants, audits global users, configures system settings, and inspects database health.
- **Data Scoping:** Complete, unconstrained global read/write across all colleges.
- **Seed Fixture:** `admin1@forgeloom.dev` (Manually seeded).

12. Course Admin (`course_admin`)

Curriculum Author

Target Persona: Chief instructional designer creating certified learning tracks.

- **Capabilities:** Authors courses, configures module and lesson hierarchies, embeds video lecture links, creates tests, and publishes to the catalog.
- **Data Scoping:** Full control over the global course catalog and curriculum data.
- **Seed Fixture:** `course_admin1@forgeloom.dev` (Manually seeded).

4 Comprehensive 12-Role Permissions Matrix

The table below provides a cross-functional mapping of system capabilities against all 12 user roles:

Platform Feature	Std	Mnt	Trn	Clg	HR	Spk	Spn	Cmd	Med	Mem	F-Adm	C-Adm
Watch Course Lectures	Yes	-	Yes	-	-	-	-	-	-	-	Yes	Yes
Submit Sprint Milestones	Yes	-	-	-	-	-	-	-	-	-	Yes	-
Grade Citadel Milestones	-	Yes	-	-	-	-	-	-	-	-	Yes	-
Book 1-on-1 Mentor Session	Yes	-	-	-	-	-	-	-	-	-	Yes	-
Manage Availability Slots	-	Yes	-	-	-	-	-	-	-	-	Yes	-
Take Classroom Attendance	-	-	Yes	-	-	-	-	-	-	-	Yes	-
Search Talent Pool (HR)	-	-	-	-	Yes	-	-	-	-	-	Yes	-
View College Campus Metrics	-	-	-	Yes	-	-	-	-	-	-	Yes	-
Author & Publish Courses	-	-	-	-	-	-	-	-	-	-	Yes	Yes
Global System Configuration	-	-	-	-	-	-	-	-	-	-	Yes	-

Repository Verification

Role enums are synchronized across the monorepo via `@forge-loom/shared-types` and enforced on the API via `apps/server/src/auth/requireRole.ts`.
