Complete Wireframe & Screen Specification

Comprehensive blueprint defining layout regions, data bindings, interactive micro-states, and visual wireframes across all 11 role portals—from Student and Citadel Incubator to Mentor Advisory and Corporate HR.

APPLICATION BASE
React 18 + Tailwind CSS v4.0 + Lucide Icons

NAVIGATION MODEL
Role-Guarded Dynamic Routing (11 Distinct Portals)

RESPONSIVE SPEC
Desktop Canvas + Collapsible Mobile Drawer (<768px)

DEFAULT CREDENTIALS
`test1234` (Universal Across All Roles)

Forge Systems Design Group

October 2026 • Publication Specification

0 Global Shell Architecture (Universal Frame)

All 11 user roles share an identical, high-efficiency application frame. Only the sidebar navigation items and the primary content viewport change dynamically according to the authenticated user's role.

FIGURE 0.1: UNIVERSAL APPLICATION SHELL (TOPBAR, NAV SIDEBAR, AND VIEWPORT CANVAS)

Sticky Topbar Region

Global

- **Branding:** FORGE Loom logotype with home redirection link.
- **Role Badge:** Royal-blue pill displaying current active authority (e.g., `Student`, `Mentor`, `College Admin`).
- **Notification Bell:** Unread count badge querying `/api/notifications`. Clicking opens a dropdown feed.
- **User Menu:** User avatar, profile settings modal trigger, and secure sign-out.

Sidebar & Mobile Drawer

Responsive

- **Route-Scoped Navigation:** Automatically populated from `ROLE_HOME_PATH` mappings.
- **Active State:** Highlighted pill with 2D flat SVG icon and royal-blue accent.
- **Breakpoints:** Above 768px: fixed 240px sidebar. Below 768px: collapses into a sliding drawer triggered by a topbar hamburger button.

1 Student Portal (`/student/*`)

The Student Portal is the centerpiece of learning velocity and builder capability. It combines course completion metrics with the Citadel Innovation Incubator and 1-on-1 mentor booking.

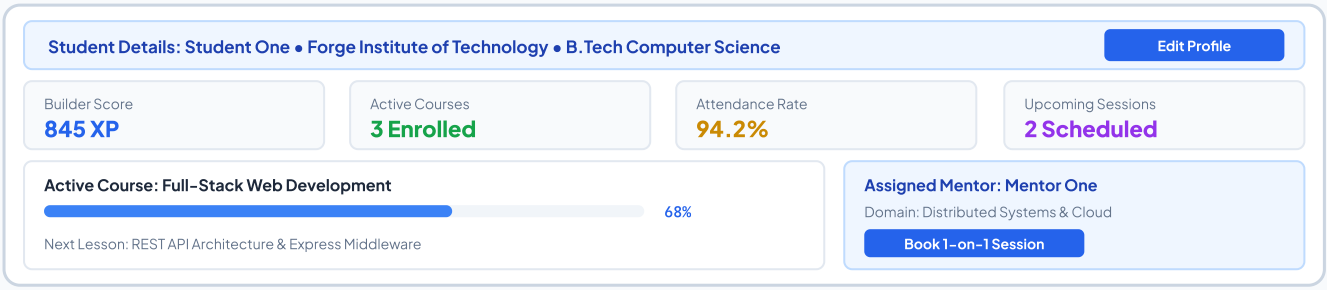

FIGURE 1.1: STUDENT DASHBOARD LANDING VIEW (`/STUDENT`)

Student Sub-Route	Component Layout	Data Bindings & Interactive State
Home (`/student`)	Personal info header, 4-stat cards row, active course progress cards, upcoming events widget, and mentor advisory card.	Bound to `studentProfiles`, `events`, and `bookings`. Clicking "Book Session" triggers the glassmorphic modal.
Course Player (`/student/courses/:id`)	Split view: interactive video player on left, collapsible syllabus navigation tree on right, lesson checklist, and resource downloads.	Bound to `/api/courses/:id` and `/api/video-progress`. Automatically syncs playback timestamps and updates course percentage.
Citadel Hub (`/student/citadel`)	3-sprint horizontal progress stepper (Sprint 1, 2, 3), Problem Statement challenge card, milestone logs, and mentor review thread.	Bound to `sprints`, `teams`, and `problemStatements`. Displays "Investor Access Unlocked" banner when Sprint 3 passes.
Mentor Sessions (`/student/mentor`)	Assigned mentor card, slot picker calendar, upcoming sessions roster, and past feedback archives.	Bound to `/api/bookings`. Post-session notes from mentors appear here automatically.
Certificates (`/student/certifications`)	Completed course credentials cards with issue dates, QR code thumbnail, PDF download, and public verification link.	Bound to `/api/certificates` and public route `/verify/:token`.

2 Mentor & Trainer Portals (`/mentor` & `/trainer`)

Mentors and Trainers drive student success. Mentors focus on 1-on-1 advisory and Citadel team sprint reviews, while Trainers manage batch lecture schedules, module tests, and attendance tracking.

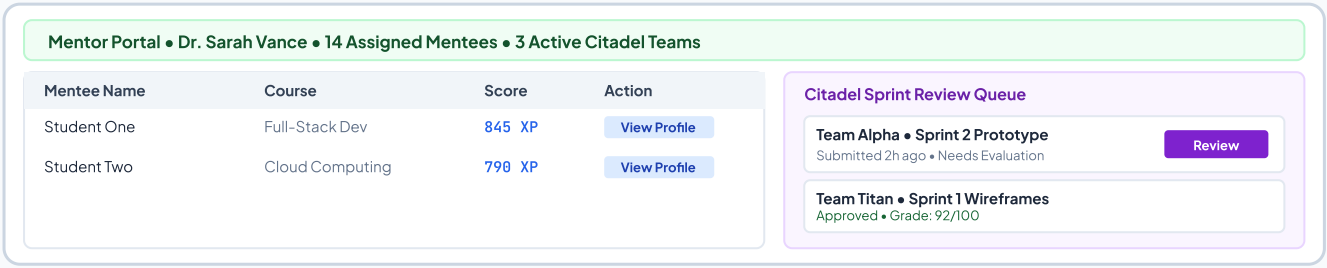

FIGURE 2.1: MENTOR DASHBOARD VIEW (`/MENTOR`)

Mentor Capabilities `/mentor/*`

- **Assigned Students (`/mentor/students`):** Read-only student profile drill-down, attendance log, course progress, and advisory notes.
- **Teams Assigned (`/mentor/teams`):** Citadel sprint milestone grading, feedback threads, and investor readiness unlock toggle.
- **Schedule (`/mentor/sessions`):** Weekly calendar slot picker, accept/reschedule booking requests.

Trainer Capabilities `/trainer/*`

- **Batch Sessions (`/trainer/courses/:id`):** Live class scheduling, attendance check-in matrix, and lecture logs.
- **Assignments:** Homework assignment creator, S3 file submissions, and grading with marks and comments.
- **Module Tests:** Post-module assessment creator with pass threshold controls.

3 HR Recruiter Portal & Talent Pool (`/hr/*`)

The corporate recruitment pipeline. HR partners filter pre-screened students based on verified builder scores, completed Citadel projects, and mentor endorsements.

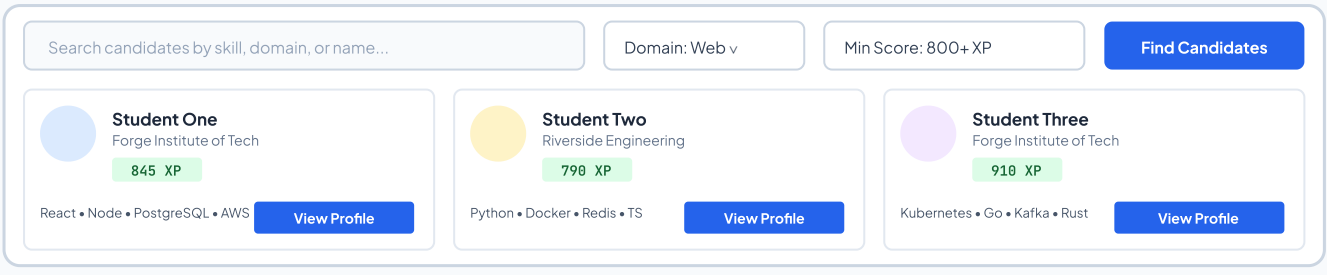

FIGURE 3.1: HR TALENT POOL SEARCH & FILTER CANVAS (`/HR/TALENT-POOL`)

4 College Admin & Forge Super Admin (`/college` & `/admin`)

Multi-tenant institutional administration. College Admins govern their campus cohorts and faculty, while Forge Super Admins monitor global platform health and onboard partner institutions.

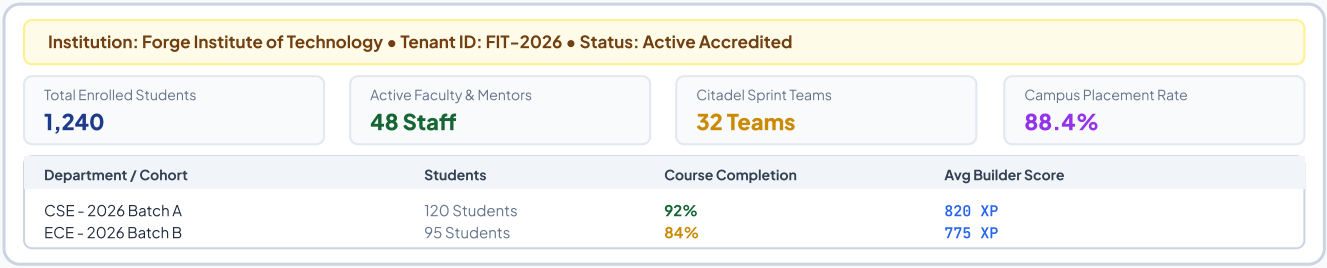

FIGURE 4.1: COLLEGE ADMIN INSTITUTIONAL DASHBOARD (`/COLLEGE`)

Other Ecosystem Roles

Role	Landing Route	Key Screen Modules	Primary Interactions
CourseAdmin	`/course-admin`	Course Catalog, Curriculum Builder, Lesson Editor, Module Sorter.	Publish new courses, add video links, configure quiz tests.
Speaker	`/speaker`	Sessions Roster, Upload Slides (S3), Post Topics, Connect HR.	Upload presentation decks, review audience feedback, propose topics.
Sponsor	`/sponsor`	Sponsored Events, Innovation Sprints, Brand Analytics.	Sponsor student hackathons, view funded team milestone demos.
CommunityLeader	`/community`	Chapter Hub, Meetup Manager, Volunteer Network, Discussions.	Organize local tech meetups, manage student campus ambassadors.
MediaPartner	`/media`	Press Releases, Media Kit, Interview Requests, Event Access Pass.	Download high-res brand assets, schedule student innovator interviews.
Member	`/member`	Community Discussion Feed, Open Webinars, Event RSVP.	Participate in open tech discussions, attend public workshops.

5 Interactive Modal Specifications

In accordance with FORGE design standards, modals utilize a lightweight, minimal glassmorphism style with `backdrop-blur-md`, royal-blue primary accents, and responsive keyboard escape listeners.

Book a Mentor Session Modal

Modal

Triggered from Student Dashboard and Citadel Hub:

- **Mentor Profile Card:** Name, avatar, specialty tags, and rating.
- **Date Picker:** Interactive calendar highlighting available slots from `/api/bookings/available-slots`.
- **Time Slot Pills:** Radio-styled pill selectors for 30-min and 45-min slots.
- **Agenda / Topic:** Textarea input for meeting goals and GitHub repo link.
- **Action Buttons:** "Cancel" and "Confirm Booking" with optimistic mutation.

Add New Event Modal

Modal

Triggered by College Admins and Trainers:

- **Event Title & Type:** Workshop, Hackathon, Masterclass, or Sprint Review.
- **Date & Time Range:** Start and end datetime inputs.
- **Speaker / Host:** Dropdown querying registered Speakers and Mentors.
- **Capacity & Cohort:** Limit seats or restrict to specific college batches.
- **Validation:** Enforced by Zod schema before `POST /api/events`.

Public Certificate Verification Screen (`/verify/:token`)

Public Endpoint

Accessible without login by scanning the QR code on any generated PDF certificate:

Verified Certificate: Active & Authenticated `TOKEN: forge-cert-8491-fit`

Recipient: Student One
Institution: Forge Institute of Technology
Course: Full-Stack Web Development
Issue Date: October 2026
Grade / Honors: Distinction (94%)
Credential Hash: SHA256 Verified
